The background of the entire image is a grid of windows, each with light-colored curtains. The grid is composed of 4 rows and 6 columns of window frames. In the bottom row, the fourth window from the left shows a person sitting on a white bench, looking out. The rest of the windows have closed curtains.

- LUX COLLECTION

UPPER MATERIALS

UPPER MATERIALS

COTTON TEXTILE

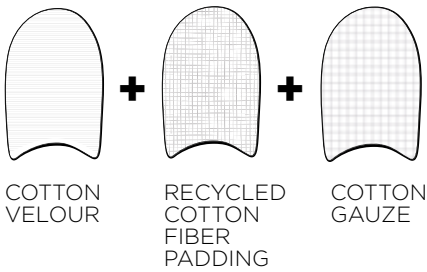

The slippers of the TEXTILE COLLECTION are entirely made of natural cotton, eco-sustainable and plastic free. The "avana" color is completely natural, without any bleaching process.

UPPER MATERIALS

COTTON LUX

The slippers of the LUX COLLECTION are made of natural cotton, eco-sustainable and plastic free. The velour finish gives the product softness and shine.

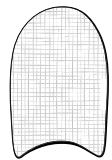

UPPER MATERIALS

COTTON SUPERNATURAL

The slippers of the SUPERNATURAL COLLECTION are entirely made of recycled cotton fiber and are plastic free. This feeling of warmth and cozyness matches the care for the environment.

DOUBLE  
LAYER  
RECYCLED  
COTTON  
FIBER

UPPER PADDING

The upper padding of the LUX and TEXTILE slippers is made of 3 layers: the upper cover, the bottom fabric (a light cotton gauze) and the internal padding (a warm regenerated cotton cloth).  
The upper padding of the SUPERNATURAL slipper is made of 2 layers of recycled cotton fiber.

LUX

SUPERNATURAL

SOLE MATERIALS

SOLE MATERIALS

100% RECYCLED  
CARDBOARD

Recycled cardboard derives from the treatment and reuse of paper obtained from waste collection. This process brings significant impact on waste minimization. In fact, the production of recycled paper consumes 70% less water and energy than production from natural resources, reducing waste and CO2 emissions into the atmosphere.

- TECHNICAL SPECIFICATIONS:
- Recyclable
  - Water repellent
  - Non-slippery thanks to the "tank" sole

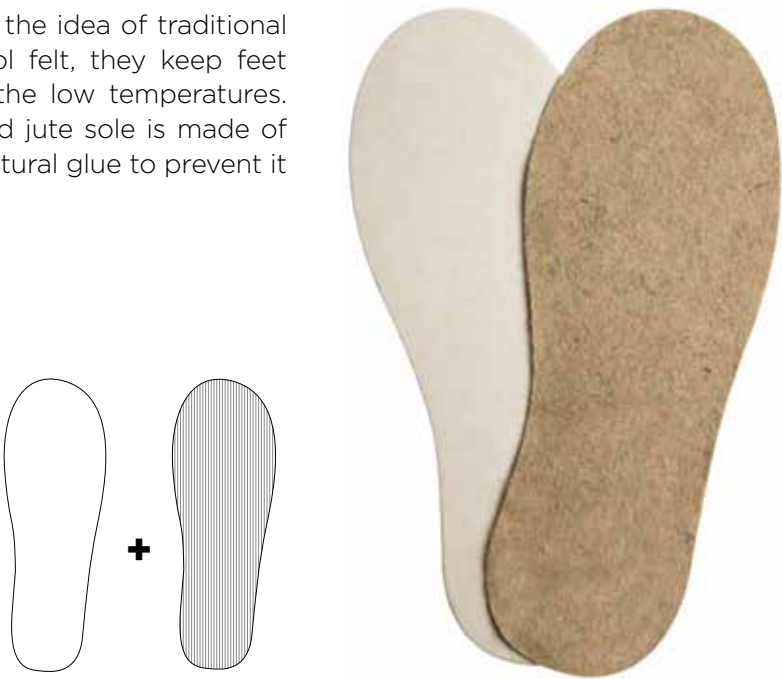

SOLE MATERIALS

JUTE

The use of JUTE for the sole comes from the idea of traditional Russian boots, the Valenki. Made of wool felt, they keep feet insulated from the snow and withstand the low temperatures. Just like the internal padding, the recycled jute sole is made of jute filaments but with the addition of a natural glue to prevent it from fraying and absorbing water.

- TECHNICAL SPECIFICATIONS:
- Recyclable
  - Water repellent
  - Thermal insulator

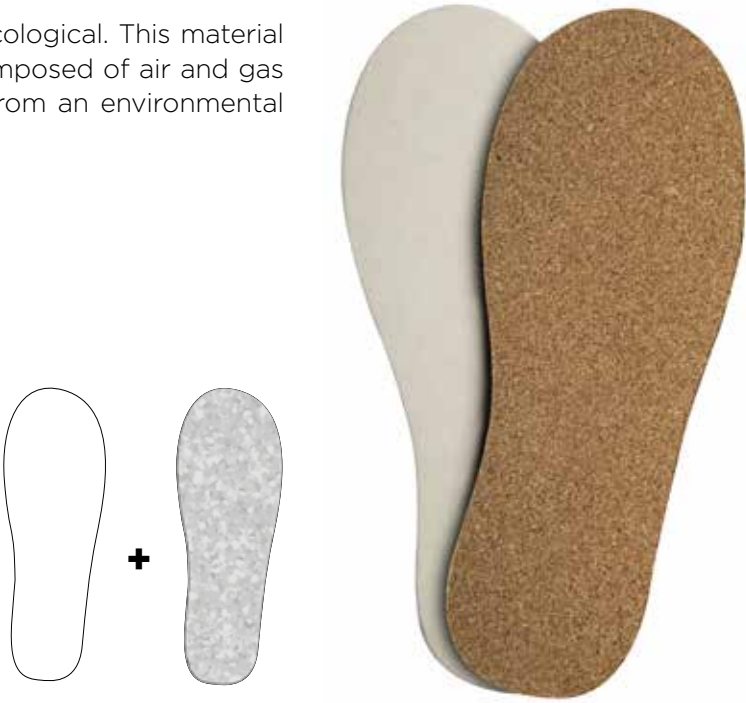

# SOLE MATERIALS

## CORK

The cork sole is completely natural and ecological. This material is light and compact as its structure is composed of air and gas (about 80%) and has many advantages from an environmental point of view.

TECHNICAL SPECIFICATIONS:

- Recyclable
- Waterproof
- Breathable
- Thermal insulator
- Antibacterial
- Chemicals-free

SOLE PADDINGS

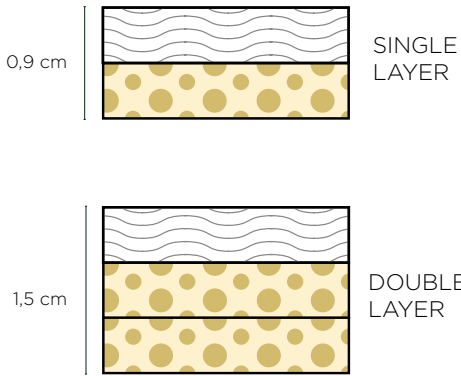

# SOLE PADDINGS

The padding of the soles is made up of recycled jute filaments, a natural fabric, a hard fiber, not very flexible and with a high breaking load.

TECHNICAL SPECIFICATIONS:

- Recyclable
- High breathability
- Thermal insulator

# CUSTOMIZATION OPTIONS

The customization of the slippers can be done through transfer printing, embroidery and fabric label.
